## The Sun, wind and rain can help us

1. This uses the sun by making a warm place for plants to grow.	
2. This tells us the direction the wind is coming from.	
3. This collects rain so we can water the garden.	
4. This uses the wind to produce electricity.	
5. This can protect us from either too much Sun or the rain.	

Greenhouse, water butt, bus shelter, wind vane, wind turbine
